

RHINO TUFF TANKS

STACKABLE STORAGE & DISPENSING SYSTEMS

INDUSTRY APPLICATIONS

Eliminate the hassle of handling messy 55 gallon drums or bulky steel tanks in your liquid storage area. Rhino Tuff Tanks systems will help transform your area into a cleaner, more efficient work space by allowing multiple fluids to be stacked vertically.

Rhino Tuff Tanks are constructed from virgin High Density Polyethylene (HDPE) for optimum surface clarity, UV stabilization, and superior environmental stress crack resistance (ESCR). They are designed for use with polyethylene tolerant fluids and accessories.

Examples of specific uses for Rhino Tuff Tanks include, but are not limited to:

AUTOMOTIVE

Antifreeze
Lubricants
Transmission Fluids
Washer Fluids
Synthetic Oils

FARM / RANCH / AGRICULTURAL

Chemicals
Herbicides
Liquid Feed
Pesticides
Non-Potable Water

CHEMICAL

Adhesives
Detergents
Dyes
Syrups
Other Food Grade Liquids

INDUSTRIAL

Cutting Fluids
Degreasers
Detergents
Hydraulic Fluids
Lubricants

Rhino Tuff Tanks systems have been certified to be in compliance with UL-2152 Nonmetallic Bulk Containers for the Storage and Dispensing of Combustible and Non-combustible Liquids. Please contact Rhino Tuff Tanks, LLC for further certification information.

Resins used in the construction of Rhino Tuff Tanks are listed with the NSF as meeting the NSF 51 requirements and meet or exceed specifications contained in FDA Regulation 21 CFR 177.1520 (2) 3.1 and

may be used as an article or as a component of articles for use in contact with food, subject to any limitations of the regulations.

Any use of Rhino Tuff Tanks with incompatible fluids, sealants, hoses, fittings, valves or any other incompatible accessories may cause a tank failure and will immediately void any and all manufacturer's warranty associated with the product(s) supplied by Rhino Tuff Tanks, LLC.

WHIP YOUR SHOP INTO SHAPE

Rhino Tuff Tanks stackable tank systems eliminate the hassles of handling 55 gallon drums. Organize your bulk fluid inventory and maximize valuable floor space by stacking multiple fluids vertically. Available in a variety of tank sizes, combinations and packages all Rhino Tuff Tanks are designed with a 36" footprint that allows them to be stacked in any combination without needing conversion brackets. Combine with an array of accessories to create your own unique storage and dispensing system. Systems have been certified as compliant with UL-2152 testing standards and bear the markings as such. Superior tank design, tough RotoMolded construction and heavy duty components, Rhino Tuff Tanks offer you the Total Tank Package!

For over 17 years, Rhino Tuff Tanks has been a manufacturer of premium rotationally-molded stackable tanks and fluid handling equipment. Today we operate out of more than 285,000 sq ft of manufacturing and warehouse facilities in beautiful Maple Lake, MN. We take pride in conducting business with integrity by holding ourselves accountable to you, our customer in all areas of value: quality, service and reliability. Striving to make our word more than just a promise, our mission is to be the stackable tank and fluid handling equipment brand of choice.

GRAVITY FEED TANK PACKAGES

SCAN ME

Rhino Tuff Tanks offers several complete Gravity Feed Systems with one convenient model number. Gravity Feed Systems feature our stackable tanks for vertical fluid storage that maximizes your space and minimizes the fluid footprint.

ALL PACKAGES INCLUDE:

- ROTO MOLDED STACKABLE TANKS
- ACCESSORY PACKAGE - BARBED FITTINGS, BRAIDED TUBING, HOSE CLAMPS AND THREAD SEALANT
- RTT-2100 STAND KIT WITH 24" LEGS
- RTT-3200 DRIP TRAY KIT WITH 4 INSERT TRAYS AND SCREENS
- NO-VALVE SYSTEMS: VALVES ARE SOLD SEPARATELY TO ACCOMMODATE SPECIFIC NEEDS
- ALL SYSTEMS ASSEMBLED FOOTPRINT: 39" w x 45" d
- SYSTEMS CAN BE STACKED TO A MAXIMUM OF 360 GALLONS

STACKABLE TANKS

SCAN ME

Rhino Tuff Tanks space saving design allows individual tank sizes to be stacked in any combination and eliminates the hassles of handling 55 gallon drums. Stackable Tanks are designed with a 36" x 36" footprint that allows them the ability to be interchangeably stacked together with no conversion brackets required. All tanks are constructed of High Density Polyethylene (HDPE) for optimum surface clarity, UV stabilization and superior environmental stress crack resistance (ESCR). Rhino Tuff Tanks provide a clean, stable, contamination-free container that will not rust or corrode – protecting your fluids from the environment. Combine with an variety of accessory options to create your own unique fluid storage and dispensing system.

FEATURES:

- CONVENIENT 2" NPT CENTER FILL OPENING
- TWO 2" NPT CORNER TOP OPENINGS FOR PUMP OR VENT APPLICATION
- 1" SIDE OPENING FOR DESICCANT BREATHER OR REMOTE FILL
- MOLDED-IN METAL 5/16-18" INSERTS FOR MOUNTING ACCESSORIES
- VERTICAL RIB DESIGN TO MINIMIZE WALL DEFLECTION
- 2X MOLDED-IN #304 STAINLESS STEEL 1" NPT DRAIN BUSHINGS
- SEE EXACT FLUID LEVELS - SEMI TRANSPARENT TANK WITH INTEGRATED VOLUME LEVEL INDICATORS
- INTERLOCKING TOP & BOTTOM RIDGES FOR SECURE STACKING
- SERIALIZED UL GRAPHIC, IDENTIFICATION LABEL AND WARNING LABEL

Heavy Duty welded Steel Stands are designed to specifically match RTT's contoured tank shape. Stand legs are constructed of 1-1/2" Diameter powder-coated schedule 80 pipe and easily accommodate bolt-on Drip Tray Kits. Welded foot flanges allow tank systems to be securely anchored to the floor. RTT-4000 Elbow Kits are easily attached to the front lip of the stand base, creating a convenient oil bar anchor at your fingertips.

ADJUSTABLE CAGE KITS NEW! UPGRADED DESIGN!

Add seismic security to your tank system. Experience adjustability and effortless installation. Designed for convenience, this updated version ensures a streamlined site installation process without the need for any cutting or trimming. Secures the entire tank system to the stand base. Cages can be installed on new and existing systems. Vertical bars run between rib grooves and do not interfere with mounting plates. Additional caged combinations are available visit www.rhinotufftanks.com.

FEATURES:

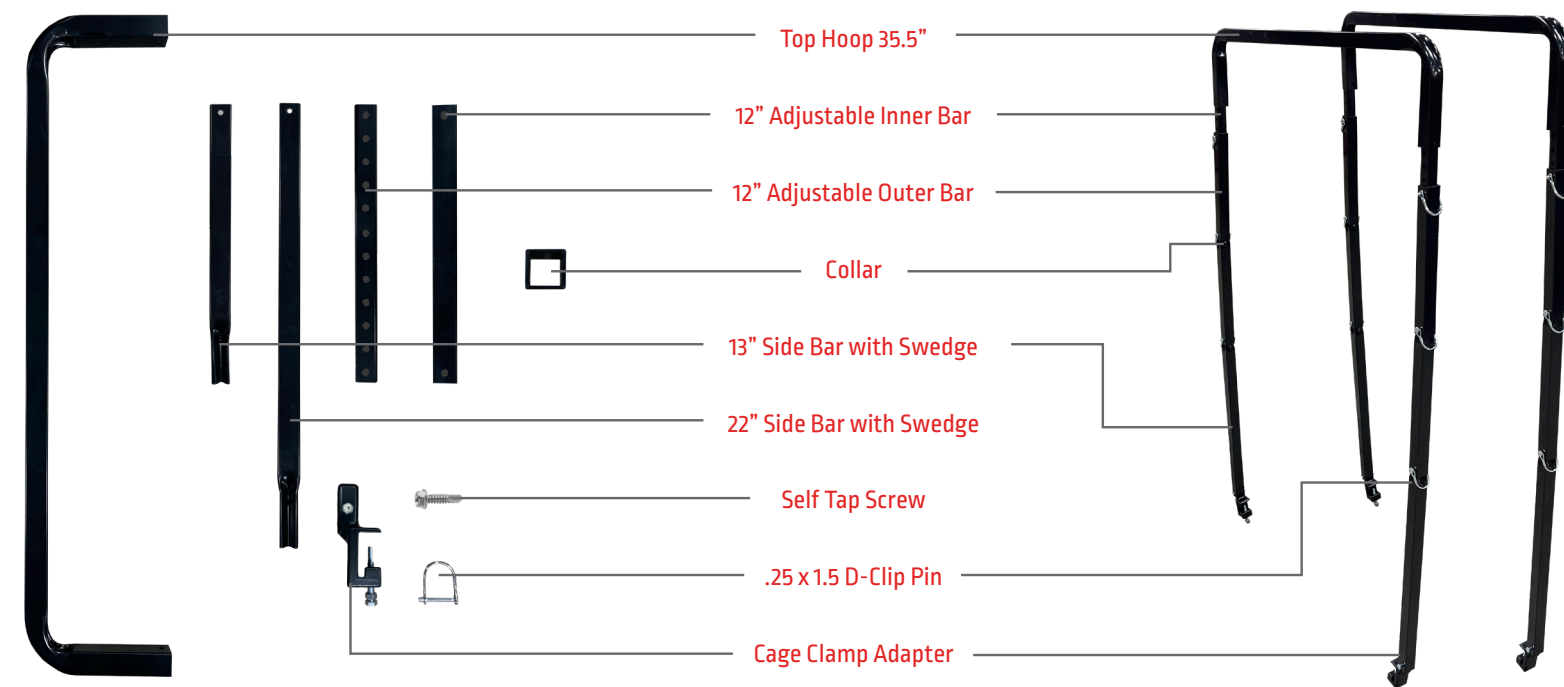

- COLD STEEL CONSTRUCTION & CORROSION RESISTANT POWDER COAT FINISH
- PROVIDES STRUCTURAL SUPPORT FOR RTT STACKABLE TANKS
- INCREASED SEISMIC SECURITY FOR ENTIRE ENCOMPASSED TANK STACK
- PROVIDES ANCHOR POINT FOR TOP MOUNTED HOSE REEL INSTALLATION
- DOES NOT INTERFERE WITH SIDE MOUNTED PUMP INSTALLATION
- MODULAR SWEDGE DESIGN ALLOWS FOR CONTINUOUS SIDE BAR EXPANSION

GRANBY TANKS NEW!

Granby tanks provide a double wall solution for lubricants, waste oil, washer fluid, ATF, heating oil and diesel blends up to B100. Constructed of a fluorinated internal HDPE tank and galvanized steel external tank with sturdy integrated galvanized base, these units optimize tight space utilization. With two tank sizes available, both are suited for areas with headroom as low as 60" and doorways as narrow as 28" wide. Easily add fluid fill and dispensing equipment with the top mount bracket kit.

FEATURES:

- PRIMARY TANK WITH GALVANIZED STEEL SECONDARY CONTAINMENT
- VISUAL LEAK INDICATOR FOR THE MONITORING OF THE INTEGRITY OF THE PRIMARY TANK
- FLUORINATION TREATED AGAINST OIL ODORS, EXCLUSIVE TO GRANBY 2-IN-1 TANKS
- CONNECTION FITTINGS MADE OF CAST ALUMINUM FOR GREATER TORQUE RESISTANCE AND GREATER PERIPHERAL SEALING
- UL-2258 AND ULC-S670 CERTIFICATIONS
- 30 YEAR LIMITED WARRANTY

ACCESSORIES INCLUDED:

- 2" NPT GALVANIZED STEEL FILL PIPE ADAPTER
- LOW PRESSURE VENT AND OVERFILL PROTECTION ALARM
- OIL LEVEL GAUGE
- OIL BURNER SUPPLY DUPLEX BUSHING WITH TUBE ADAPTERS

TUFF TANK JACKET **NEW!**

The NEW! TUFF TANK JACKET provides rugged, yet flexible and lightweight protection for the contents contained within the RTT Portable DEF tanks against extreme temperature changes and UV exposure.

SCAN ME

FEATURES:

- Thermal Retention**
- Keeps tank contents protected from harmful uv rays
 - Outer shell marine grade Sunbrella fabric - oil and stain resistant
 - Insulation (Thinsulate) liner provides thermal protection in both hot and cold seasons
 - Integrated lid cover for full enclosure
 - Lightweight, flexible and compact

- Easy to Install**
- See-through site gauge for fluid level visibility
 - 4-way securing mechanisms: Snap, Strap, Bolt, Hook & Loop

- Internal Heating Elements**
- Dual affixed heating elements with direct-tank contact
 - Multi-point sensors to ensure reliability of fluid temperature
 - Built-in fixed controller to regulate heating elements

Heating Element Specs: 120 VAC, 500 Watts, 4.6 Amp
